Cambridge University Press has no responsibility for the  
persistence or accuracy of URLs for external or third-party  
Internet websites referred to in this publication, and does not  
guarantee that any content on such websites is, or will remain,  
accurate or appropriate.

Every effort has been made in preparing this publication to  
provide accurate and up-to-date information which is in  
accord with accepted standards and practice at the time of  
publication. Although case histories are drawn from actual  
cases, every effort has been made to disguise the identities of  
the individuals involved. Nevertheless, the authors, editors and  
publishers can make no warranties that the information  
contained herein is totally free from error, not least because  
clinical standards are constantly changing through research  
and regulation. The authors, editors and publishers therefore  
disclaim all liability for direct or consequential damages  
resulting from the use of material contained in this  
publication. Readers are strongly advised to pay careful  
attention to information provided by the manufacturer of any  
drugs or equipment that they plan to use.
